

Our brand new, light weight, easy to use air sampling head

Robust designed filter head for asbestos fibres in air as recommended in MDHS 39/4.

Available with lightweight conductive aluminium cowl. Uses 25mm membrane filters of 0.8um or 1.2 um.

Simply unscrew and load the paper filter in.

Virgin PTFE "O" ring and support pad, easy to clean and robust.

Push fit connection.

You can now order this online from the new accessories section on our web shop, where you will also find batteries, chargers and a whole selection of spares.
